WORK EXPERIENCE

Freelance Web Developer

February 2026 – Present

- Delivering exceptional, high-performance websites for local businesses.

Full-stack Developer Intern | Digital Nexus AI

April 2025 – October 2025

- Develop features for AI-powered web applications using React, Node.js, and MongoDB.
- Collaborated in Agile sprints, contributed to production-level apps.
- Participated in code reviews and daily stand-ups to improve project outcomes.

PROJECTS

Zakaži AI - [zakazi-ai.com](#)

- Developed a web application for automated appointment scheduling that leverages AI to enhance user experience and streamline booking processes.
- Built responsive frontend using Next.js and implemented secure backend with MongoDB for data storage and management.
- Integrated OpenAI API to provide intelligent suggestions and optimize appointment scheduling based on user preferences and availability.

ActiveMontenegro - [activemontenegro.com](#)

- Developed a modern web platform for the “Active Montenegro” travel agency (Next.js, TypeScript, Tailwind CSS), focusing on high performance and responsive design.
- Implemented a user interface optimized for showcasing adventure tours and extreme sports, designed to enhance online presence and user experience.

LANGUAGES

- Fluent (spoken and written) in both English and Serbian.
